Fun For Her

Aphrodite's Ladder

This is a rather romantic one that requires a flight of stairs. with her on the 2nds step from the bottom (adjust to the first or third step based on your height to hers)

"On each of these steps is one of the reasons that I love you. Whenever you like, move up another step and I will give you another reason. I love you because..." and then give her your first reason. From here enter her or orally please her. She can cum as much as she wants, but you must last till she makes it to the top of the stair case to successfully say you claimed Aphrodite's Ladder.

A Taste of Honey

You need honey for this and either of you can perform it well on the other.

Now...honey IS messy, so apply small amounts as drops along her body, be it her front, back, or sides and gently lick and kiss it all up off of her body cleaning the honey off of her body.

When orally pleasing her like this put a drop of honey on the tip of your tongue and go to work, reapply as needed

Alpha-lick

This is a simple but fun oral trick that women love and always keeps them guessing, simply use your tongue to do your alphabet from A-Z first lower case then upper case, with a little practice you will figure out what letters she likes best so you can focus on them.

Back Wards Missionary

Lay flat on your back, have your girl kneel into you facing your feet and slide your inside, from here she leans forward and hugs your legs giving her a different way to have control

of the speed and depth of penetration as well as introducing penetration from a different angle

Between a Cock and a Hard Place

This can be a physically demanding move but its one she will never forget.

Sit on the edge of your bed with your woman standing and facing you, then have her kneel on your lap and slide you into here. From here she can sit on your lap and wrap her legs around your waist as she puts her arms around your neck.

Now you put your hands or arms under her butt for support, stand up, and walk to any wall you can pin her back against.
and thrust away.

Broken Promise

Cross your middle and index finger and then slowly insert them into the vagina

Then Simply rotate the for arm while thrusting in and out of her with your hand, from here try and brush your thumb across her clitoris.

Continue until she orgasms

Body Shot - Belly button

Use Peppermint Schnapps and pour a little into her belly button.

Then do any of the following, (refill her with schnapps as needed)

Dip the tip of your tongue into her belly button then trace small circles around one of her nipples. Blow on it to enhance the cool feeling.

Lick the Clitoris blowing on it to enhance the cool feeling

Give her oral again blowing on it to enhance the cool feeling

Body Shot - Panty

You will need Wine and a pair of Cotton Panties.

With here wearing the panties, pull on the elastic band at the top of the panties, just below her belly button. Pour in a little wine and let it soak the front of her panties and vagina, and then press your lips against the panties over her vagina and clitoris and suck the wine through the fabric.

Most women press against you or pull your head tight against them when you do this to them.

Celibate splooge

When spooning with your girl, slide your penis between her legs (but don't enter her) move the head of the penis so its pressing up against her clitoris. from here thrust as you

normally would in short strokes so the head of your penis keeps catching her clitoris coming and going.

A good lube may be needed if you are starting with this

Chinese Take Out

You will need a pair of splinter free chopsticks for this one, place each chopstick along the outer edge of her vaginal lips. Now use your thumbs to gently roll each fold of skin around the chopsticks opening her up. (note: some women cannot do this so don't fret if its your girl try the other 99 tips)

Now that she's opened up, dine

Circling tongue

Did you know most women are more sensitive on one side of their clitoris then the other? you do know, for this little trick start by putting your tongue at the 12 o'clock position or top of her clitoris, then bring your tongue down the left side to the bottom of her clitoris or the 6 o'clock, go up and down on this side for about 30 second and then repeat on the other side, based on her reactions you will know what side should get more attention. Just remember not to neglect the other side of her clitoris

Cotton Kinky

Have her lie on her back with her knees bent and legs slightly apart and take cotton candy and run it along the length of your woman's body. Brush it against her face and let her enjoy both the smell and feel of it.

From here you can at your leisure do several things

1. Break off a small piece of cotton candy and place it on the tip of your extended tongue. Give your woman a deep, long, open-mouthed kiss.
2. Break off another piece and place it on your tongue. Press it to one of your woman's nipples, then surround it with your mouth. As you close your mouth, the cotton candy will dissolve. Gently suck the melted candy from her nipple. Repeat with the other nipple.
3. Put another piece of cotton candy on your tongue and, this time, press it to your woman's vagina. Let the combined moisture dissolve the cotton candy in a sugary, tangy nectar.

NOTE: don't do 3 unless you have a way to deep clean your girls vagina, that type of cleaning is usually easier and least messy in the shower so move your sex session when your done

Dirty Drawbridge

Sit in the bed with your legs straight out in front of you, have her kneel as she slides you into her, with her now on her knees sitting on you, have her lay back so her head is resting on your ankles or feet.

When thrusting you wont get as much movement as you normally do, but this position magnifies the sensation due to the angle you are entering her

Fire and Ice

For this you need a cup of crushed ice and a cup of hot coffee or tea (hot as in you can comfortably chug it and not get burned.

take a bit o "fire" and swish it around in your mouth so your good and hot and go down for some oral, then get some "ice" in your mouth and get your mouth good and cold, go back down on her, then switch back and forth between a hot mouth and a cold mouth on her.

Flickering Candle

You will need a candle for this one

Start by having her lie on her back with her knees bent and legs slightly apart.

Light the candle and place it near your woman's head (not too close). Usually, on top of the nightstand will do just fine.

If you've got a ceiling fan in your bedroom, turn it on low. Otherwise, any type of fan that will move the air gently around the candle will do.

Position yourself so you can pleasure your woman orally and see the flame of the candle at the same time.

As the air swirls around the candle and causes to flame to flicker, duplicate the movements of the flame with your tongue.

If you like, let your woman know what you're doing so she can anticipate the movements. It's as if the flame itself is pleasuring her.

Furry Hand cuffs

Furry hand cuffs can be a lot of fun, hand cuff your girls hands behind her back, from here you two can be as gentle or crazy as your ok with, but it brings a whole new level of intimacy

G Man

Water based lubricates can help with this.

First gently caress your woman's thighs, stomach, and bikini line (the best way to find out what pressure is good is to just ask).

Now delicately squeeze the outside of the lips of the vagina one at a time using the thumb and for finger.

Palm up insert the middle and /or index finger into her vagina and make the "come here" gesture using these fingers.

Now you can use your thumb to trace circles over her clitoris.

Continue till she cums, squirts, or both (if she squirts don't freak out and do reassure her, most women have never had a G spot orgasm and will be very confused and unsure of

what this means to you, the short and skinny is she hosed you with pussy juice from the gland that normally keeps her pussy moist)

Life Saver

You will need lifesavers or any other candy/mint with a hole in it.

With the candy in your mouth spend a minute or 3 getting your girl aroused with kissing and gentle stimulation with your hands to her nipples and clitoris.

Once the clitoris is erect, move the hood out of the way and with your mouth place the live saver on her so her clit is sticking up through the middle of the life saver, you may need to gently suck it into place with your mouth, once you have it here you can lick it any way you like or flick your tongue against it rapidly

Grapes of Rapture

Get some seedless grapes and chill them in the fridge, from here she can lay back or sit (both with her legs spread) and you or she can hold the grapes, as you are kissing, licking, and nibbling your way up and down the inside of her legs and giving her oral, put a grape in your mouth (the how I leave to you) you can eat your girl out and push the cold grape into her pussy for a second or two and then suck it back out of her to eat and swallow the grape.

Hitchhiking

Ok make the hitchhiking gesture with the closed fist and the thumb sticking straight up, now apply lubricant to the knuckles, (the ones you knock on a door with)

From here have her lay on her back or sit down with her legs spread maintaining the hitchhiking gesture, gently touch her clitoris with the knuckle of your forefinger. Sweep your wrist upward so that all four knuckles brush against and stimulate the clitoris. Then, reverse the motion so that all four knuckles brush by the clitoris on the down stroke. Repeat the motion.

Hummer

This is a very simple trick, when giving your girl oral simply hum and let her feeling the vibrations through your lips, this works very well on her clitoris if you have it between your lips

Icy Dildo

Simply take a extra strength condom and fill it with water, Now toss it in the freezer over night, Vwala, Ice dildo, now in using this sucker keep in mind its on her to like or dislike

it, if she enjoys it you can start to get creative, but if she doesn't like it you only wasted one rubber

Lipping It

Have your girl lie on her back with her knees bent and legs slightly apart.

Then put your head between her legs.

Open your mouth about a half an inch wide and roll your lips inward covering your teeth.

Press your slightly open mouth to your woman's vagina, with the clitoral hood in between your lips. This is why you need to be freshly shaven. Stubble above or below your lips becomes much more pronounced when you curl them inward and would be uncomfortable against your woman's sensitive skin.

Keeping your lips curled, form an airtight seal around the hood and gently suck inward; her clitoris will have no choice but to expose itself.

While maintaining the suction, apply rapid flicks of your tongue to her clitoris. Vary your tongue movements until you find the combination that she likes best. Focus entirely on that one until you've delivered a

Loving Lips

Gently pull the hood of the clitoris back exposing it, now lick your lips and catch her clitoris with your lips, slowly roll your lips into your mouth covering your teeth and as the same time lift your head until her clitoris slips out of your mouth, repeat. and experiment (don't do this if you have a mustache she may object)

Menthol Lick

Any Menthol Cough Drop will work, simple put it in your mouth and move the drop around in your mouth, make sure you rub the tongue on the drop, focusing on the tip of the tongue right before you are done.

Keeping the drop in your mouth lick around the vagina and give the clitoris special attention, you can stop every now and then and gently blow on her vagina and clitoris to enhance the cooling sensation.

M&MMMMS

Using you guessed it, M&Ms or any similar candy, give her the bag and turn out the lights, this is a sex game, she licks the candy so it will stick, and then hides it on her body, you have to use your mouth and tongue to find it.

N-Ice

You will need an ice cube for this one, its also a great way to bring a girl whose "shy" or "inexperience" into the fun side of sex

With the ice cube in your mouth you push it forward until just a tip of the ice cube is sticking out of your mouth.

From here you can...

Gently kiss her all over (never opening your mouth, just small peck kiss's)

Glide the cube over her neck, breasts, stomach, thighs, and legs

Lets Drops of ice water drip on targeted areas Nipples, Clitoris

And get your tongue good and cold to give her a glacial oral experience

Nothing Butt Time

Get a egg timer or some other timing devise that goes "ding"

Now you tell your girl what you want her to do for say 3 minutes, then its here turn to tell you what she wants for 3 minutes. If your girl is shy this is a good way to get her to say what she likes

Patio play

You need to put a patio chair in the up right position

Place the pillows lengthwise directly under the chair.

Pull the center-most straps apart and tape them to the next-closest straps, creating an opening in the chair about four or five inches wide.

Have her sit in the chair. Her vagina needs to be directly over the opening that you've created.

Now get under the chair and lie on the pillows. Position your mouth directly under your woman's vagina. Grip the outermost edges of the chair, pull yourself up and pleasure your woman orally.

You can continue to do this until she has reached orgasm. Or, after a few minutes, move on to the next step.

Move yourself so that your penis now lines up with her vagina. Place both of the pillows underneath your buttocks.

Now just thrust away

Pearl Necklace

Nope this isn't cumming on her neck, use a real pearl necklace, then have your girl spread her legs while sitting or laying on her back, Position the fingers and thumb of one of your hands as if giving the

"thumbs up" sign. Hang the pearls off the tip of your thumb.

Now press your thumb against her vagina, just below the clitoris. Use your other hand to pull the strand around your thumb up towards her stomach. As you're doing this, each pearl should be brushing and stimulating your woman's clitoris.

Once you've pulled all the slack from the strand, reach down and pull it again. The pearls will simply loop back around, running under your thumb and over your woman's clitoris again and again.

It's up to you to figure out how fast/slow you should pull the pearls. Once you find the right speed, you will bring your woman to orgasm fairly quickly.

Pet Pussy

Get your woman naked. Have her lie on her back with her knees bent and legs slightly apart.

Apply a little lubricant to the backs of both of your hands, including your wrists and fingertips.

Extend one of your hands, palm down. Curl your fingers inward halfway to the palm.

Place the wrist of that hand against the bottom portion of your woman's vagina.

Using smooth strokes, glide your entire hand, including your fingers, up and over her vagina and clitoris.

Immediately repeat using the other hand, performing the exact same motion. It kind of looks like you're painting a fence; except you're never stroking down -- always up.

OR

Have your woman get on all fours and perform the same technique from behind her (this reverses the motion).

Ping Pong

Most girls like the idea of being tied up but get cold feet when its time to do the deed, this is a simple way to restrain her but leave her the ability to get up and leave when ever she wants.

Have her lay on her back, and place a ping pong ball in her navel, tell her if the ball touches the bed its game over. Now do what ever you want.

2 other rules, if the ball doesn't touch the bed she's still winning, Oh and you cant rock the bed, if your gona win you got to rock her world.

Pops-lickle

Take a popsicle (flavor of your choice) and just lightly tease her with it, make it a point to go a little slow so her skin melts it leaving a tasty trail you can follow and kiss/nibble/lick up.

You can also tease her pussy lips and clitoris like this, now its a mater of her personal preference as to if you should insert it into her, if unsure just put in the tip and see her reaction, If she likes it spin it clock wise and counter clock wise inside her.

If you don't have a shower with a long hose attachment don't stick more then just the tip in, if you do have this you can go to town so to speak, just make sure you take her into the shower to clean up her insides. Not a place you want sticky candy stuff to stay.

Also use sugar free popsicles to help prevent a yeast infection.

Pop Rockin

Sex is supposed to be both fun and feel good, this trick will probably have you both grinning, For this one you get pop rocks or any other exploding candy, simple open the bag and sprinkle some on your tongue before licking her vagina from bottom to top...or top to bottom...or in whatever kinky way you dream up, this will leave a trail of popping candy behind. You may want to keep a glass of water near by so you can take a sip before making things pop

Rocking Horse

With you sitting in your bed, your legs straight out in front of you, have your girl facing you, kneel as she slides you in, once she is comfortable kneeling on top of you, have her

one leg at a time (keeping you inside her) move so she sit in your lap with her legs now pointed strait out in front of her.
just pull her close and rock back and forth, down worry about thrusting, let the rocking do all the work

Rose by another name

Simply using a thorn-less rose lightly touch and stroke her body, spin the rose clockwise and counter clockwise in your hand as you go and use a light VERY LIGHT touch.
You can also take one rose petal and place it on the tip of your finger, gently press the rose petal into her clitoris and trace the number 8 through the rose petal onto her clitoris
Vary the patterns and pressure until you get the job done

Satin Wrap

For this you will need towels (at least 5) and a satin night shirt, If you can get something to tie the end with that would be a solid plus too.

The basic idea is you roll a towel up, then another towel is rolled up around the first, keep layering towels until its the right size for your girl to comfortably lay on and still sort of be on all fours, now when you take her from behind, every thrust will move her and rub her clitoris on the satin sheet. Its a little work to set up but does the job.

Sex-cycle

For this fun one you just need a washing machine and a load of wet laundry. After the washer is done doing its official "washing" chores it goes into the "rinse and spin" cycle, this is when you can have some fun. When you hear it kick into spin, seat your girl on it, spread her legs and go to town. The combination of her sitting on what is now a giant venerator mixed with sex with you is always fun for every one

Seltzer

You need the any seltzer that has the medical ingredients removed, Now take it and break it into 4 pieces, stick one piece inside her vagina going just far enough that it stays in place, take a sip of water and let some fall out of your mouth onto her vagina activating the seltzer tablet. from here oral it up. (note: clean up is sort of needed with this one, any hand held shower head will work here as you can take off the shower head and shoot water up inside her to clean her out)

Silk Shoe Shine

You need a short and long silk scarf for this one, use the short silk scarf to blindfold her and have her stand with her legs slightly apart.

Now you stand at your woman's side, facing her.

Gently run the long silk scarf over her body. Let her feel it on her arms, breasts, buttocks and legs. After a couple of minutes, place the scarf in between your woman's legs.

Hold one end in front of her, the other behind. So she is straddling the scarf.

Raise both ends of the scarf above your woman's midsection so that the middle barely touches her clitoris and vagina. Glide the scarf back and forth as if you were "buffing" this delicate area. The longer your strokes, the better.

Silk Prison

You need two long pieces of silk for this one, simply tie both hands or one hand and one foot, to the bed posts, this is a good way to both have fun, and build her trust with you in when in more vulnerable sexual positions.

Sitting Pretty

Stack a few pillows behind your self so your propped up as you lay down on your back, have her sit on you facing your feet (sliding you inside her of course) Now have her lean back supporting her self with her arms and kick her feet out (knees bent) so her feet are outside your legs.

From here she lifts her self up off you a little bit and you can begin thrusting up into her

Steam Clean

For this you will need a bowl of hot water, two wash cloths, and scissors

Cut the wash cloths so you have a square hole that is about as wide as your hand.

Soak the wash cloths in a the bowl of hot water, wringing one out before you use it.

With her laying on her back, use one hand to push her knees into her chest, with the other lay the wash cloth on her rotated 45 degrees so it looks like a diamond, adjust its placement so only her clitoris to her anus is showing.

You can use oral, toys, fingers, or whatever else you two can think up at this point.

After a few minutes change out the wash cloth wringing out the new one and putting the used one back in the bowl. Repeat

Strawberry slit cake

Before you begin, cut some strawberries into quarter-inch slices from the top down. Have her lie on her back with her knees bent and legs slightly apart and apply the whipped topping liberally around the lips of your woman's vagina. Carefully press the strawberry slices into the whipped topping.

Now using your tongue, gently remove a slice of strawberry and "share" it with her.

Tease her by delicately licking around the vagina and clitoris.

Have fun alternating between eating the strawberries and pleasuring your woman.

Sucker

Using a sucker that you keep wet in your mouth, gently run the smooth head of the sucker over her pussy lips and vagina, you can also press the sucker against her clitoris and spin it clock wise and then counter clock wise as you orally please her.

IMPORTANT, suckers get air pockets in them at times when they are made, as the sucker dissolves these sharp edges will show up from time to time, discard any sucker that has one of these sharp edges and get a new one

Sunday Drive

You need a car with a sun roof for this, and you should park where no one will see you. get your girl at least bottomless and have her stand up through the sunroof and lay on the top of the car, spread her legs and eat her from below.

Tasmanian Jack-knife

Have your girl lay on her side and then bring what ever her top leg is up into her chest, resting her foot on her knee.

From here you can get very deep inside her and stimulate areas you normally cant reach inside her.

Triangle

Have her lie on her side.

Now with you standing over her, lift your woman's top leg up, resting her foot on your midsection.

Now have her extend her other leg out so that it is perpendicular to her body. Next, have her use the corresponding arm (right leg, right arm) to reach out and hold her knee. She

has now formed a triangle. The three sides of the triangle are: her body, her leg and her arm.

Place one of your feet inside the triangle. Squat down. The leg that was resting on your midsection should now be resting on your shoulder.

Enter her and have fun.

Twister

Ok we all know how to play "normal" twister, for this one after every spin, you have to see how you can be intimate in any way your ok with.

Venus Butterfly

Have her lie on her back, her knees bent and legs slightly apart and apply a little lubricant to your hands.

Now put your hands together, as if you were saying a prayer. Bend each of your ring fingers down to the knuckle. All of your other fingers should remain extended.

Now comes the "ladies choice" part of this technique. In the classic Venus Butterfly, your extended pinkies would be inserted into your woman's anus. or you simply fold your pinkies over like your ring fingers (it's totally a matter of personal preference).

Next, insert your middle fingers into her vagina. Your index fingers should be placed on both sides of your woman's clitoris.

Keeping your fingers together, open your palms so that your thumbs are about three inches apart. Begin to rub your fingers back and forth, as if you were trying to warm them. When you do this, your hands will resemble a butterfly flapping its wings.

Vineyard Mist

Get your self a sweet tasting wine (not from a box) and a spray bottle, not one that has ever had cleaning products, insecticides, or other toxic material inside it.

Show her the spray bottle and demonstrate its wine, spray a little into your mouth, and hers so she sort of knows what's up, Then put it on the mist setting and just mist a spot on her body and follow up with your mouth, and what ever you cant get with kiss's lick up with your tongue. As to what parts of her body become wine country, I leave to you.

Wall Walking

Have your woman lay on her back at the edge of the bed, from her put her feet on your shoulders as you enter her.

Now simply have her put her feet on your chest, as she "walks" up and down your chest it will change the angle of penetration inside her, she can now move to what feels best and enjoy her self

Wet-Works

You will need any hand held shower massager,

When the two of you are in the shower use the shower massager to stroke and caress the inner thighs and bikini line.

With the free hand gently move the hood over the clitoris out of the way and use the massager to shoot jets of water at her clitoris making sure the water isn't too hot/cold or forceful

Whipped Cream Delight

You need NON DARY...I cannot stress this enough, you need Non-dairy whipped cream, as dairy whipped cream will emit a sour milk smell after its been on the body for a few minutes.

Apply non dairy whipped cream to her navel, nipples, bikini line, clitoris and vagina.

From here simply lick her clean.

Clean up can be a mess so don't do this unless you have a detachable shower head with long hose attachment so you can clean them hard to reach places inside her pussy (you do NOT want food going bad in there, that and this leads to great shower sex after)

Fun For Him

Ally Cat

Lie down on the bed on your stomach.

Place both pillows under your hips, stacked one on top of the other. This positions your vagina in the air and gives your man a great view of the fun. It also provides for a deep and satisfying amount of penetration.

Have him enter you from behind and begin thrusting and enjoy.

Altoids

This is a simple fun one, put a altoid in your mouth and from here . every now and then you can stop and exhale or blow onto his penis every now and then to enhance the cooling

Beddy Bye

For this position have you man sit on the edge of the bed, then lay back onto the bed with his feet still touching the floor. Climb on top and slide him in, From here you on top can control the speed and depth, and still leave him the freedom to thrust up into you as much as he likes.

Blueberry Swirl

This is a simple fun one men love, simply put 3 to 6 blue berries in your mouth before you give you man oral. Some men like the blue berries warm, other prefer cold, so experiment and see what you two like best.

Business blowout

This is a good way to keep your man up as long as you like. Once your man is erect, take his business tie and wrap it around the base of his penis so the knot is on the bottom of his shaft and put the ends around your hands. Test this by telling him you are going to pull the ends, his job is to tell you when it becomes to tight or uncomfortable. Make a

mental note of how tight you can pull without hurting him, that's important. Now when you pleasure him orally, virginally, or with anal pleasure, when you feel he is about to climax, or he tells you he is about to cum. At that moment stop moving for 5 or 10 seconds and pull the ends of the tie. Now you can go back to what ever you two were doing until you need to tighten the tie again.

Breakfast in Bed

Get yourself a cinnobun or similar twisty pastry, you may want to get rid of the outer most part as its usually brittle and a little crumbly and wont do well in this.

Heating it up and then unwrap it, when your man is good and erect wrap it around his shaft from base to tip, and enjoy hearing him groan and seeing his toes curl as you enjoy a good breakfast pastry, its even got a cream center.

Candy Cane

Have your man stand with you on your knees, take any candy cane and unwrap it, lick it all over so its wet and sticky, now turn it over so the candy cane looks like a "J" no hands can touch his penis for this game, use the candy cane to lift him up into your mouth sliding the candy cane up and down his shaft and use you oral play with him, Ill leave the rest up to your imagination.

Chocolate Cherries

Take a chocolate-covered cherry and turn it upside-down, now bite off the flat portion or bottom. You should now have a chocolate "wafer" in your mouth, and be holding a chocolate cup filled with juice and a cherry.

Bite the wafer into halves and set one half on each of his nipples.

Hold the cup above your man's legs and tilt it so that the juice drizzles onto his inner thighs. Do not let the cherry fall out.

Using your mouth and tongue, slowly lick the juice off your man's thighs. He will find this incredibly arousing.

Now place the cherry in your mouth. Give your man a deep, long, passionate kiss pushing the cherry into his mouth.

By now, the chocolate on his nipples should be soft. Using your mouth and tongue, suck and lick it away from each nipple.

Finally, turn the chocolate cup over and place it on the head of his penis. Pleasure him orally.

Chocolate covered Penis

For this one you need "hard shell" chocolate ice cream topping. Take a condom and fill it with water so its girth is a touch bigger then your man when fully erect, toss it in the freezer and let it chill. Now take it out of the freezer and using a stick of butter coat the outside of the condom. Pour on the hard shell chocolate and let it harden, from here you

can some times just pull the condom out of the hard shell you made, other wise, cut the back of the condom and let it melt and drain, this will cause the condom to shrink leaving you with just the hard shell.

When giving your man oral, slip it on him and enjoy

Chocolate treats

Take a cup and fill it with chocolate, oh and lay a towel down on the bed, this can get messy!
